

Tough-PAC® Tablet Case for iPad

Experience the ultimate in device protection and hygiene with Tough-PAC®.

Product Overview

The Tough-PAC® Tablet Case is a cutting-edge, antimicrobial hard-shell enclosure designed specifically for the iPad and iPad Air.

Engineered for use in healthcare, hospitality, retail, manufacturing and educational environments, this robust case offers superior protection against workplace damage, knocks, fluids, and surface contaminants like bacteria, fungi, molds, and viruses.

Key Features

- **Anti-Microbial Protection:** Inhibits or destroys harmful surface contaminants to maintain a hygienic environment.
- **360° All-Round Protection:** Includes a replaceable antibacterial tempered glass screen protector to shield your device from all angles.
- **Shock and Dust Resistant:** Shields all ports and buttons from dust ingress while providing substantial shock protection.
- **Simply-Dock® Charging:** Enables easy charging and data synchronization without the need for cables—complete flexibility with desktop, multi-docks and VESA wall mounts.
- **Ease of Cleaning:** Compatible with anti-microbial wipes and sprays (see our cleaning guide for approved options).
- **User-Friendly Design:** Features like a carry handle and a removable camera port* make it versatile and convenient for busy professionals.
- **Customizable Options:** Available in custom colours for bulk orders.

*Removeable camera port on 10th Gen 10.9" (2022), Air4 and Air5 10.9

Compatibility

Compatible with the iPad 7th, 8th and 9th Gen (10.2"); 10th Gen 10.9" (2022); iPad Air3 (10.5"); iPad Air4 and Air5 (10.9").

Technical SPECIFICATIONS

- Biomaster anti-microbial technology
- UL and CSA approved flame-retardant ABS plastic
- Standard USB 2.0 connectivity
- No loss of WiFi and Bluetooth connectivity
- **Case Weight (including iPad):** 1.02 kg
- **Size:** 33.5 x 21.5 x 2.7 cm

Benefits

- ✓ **Enhanced Hygiene:** Anti-microbial hard shell ensures a clean and safe environment.
- ✓ **Robust Protection:** Comprehensive protection against knocks, fluids, and contaminants.
- ✓ **Peace of Mind:** With busy staff in mind, Tough-PAC® offers ease of use, low maintenance, and secure confidence.
- ✓ **Convenience:** Simply-Dock® charging options eliminating the hassle of plugging in cables, making charging and data syncing effortless.
- ✓ **Customizable:** Available in custom colours for a personalized touch (minimum orders required).

Applications Ideal for

Healthcare Professionals

Maintain hygiene and protect devices in clinical settings.

Hospitality

Keep devices safe and clean in busy environments.

Retail Workers

Ensure durability and ease of use for POS systems.

Educational Users

Provide sturdy, cleanable protection in schools and universities.

About Schiltron.io

Schiltron.io is a technology company providing international services for the Tough-PAC range of products in conjunction with Inner-Vision Technology. Our mantra is to protect, innovate and transform working practices. With the Tough-PAC suite of innovative products and services, we offer a solution that protects your devices, data and the people using them, enabling safer and more secure mobility and flexibility in healthcare and other people facing environments, such as education, retail, hospitality and manufacturing.
