Tough-PAC® Charging Options for iPad

Experience the ultimate in device protection and hygiene with Tough-PAC®.

Product Overview

The Tough-PAC® iPad system has two options – a desktop single unit cradle and multi-unit charging station. Both use the **'Simple Dock'** system to ensure optimized charging and offer data synchronisation functionality.

Tough-PAC Desktop Cradle

The Tough-PAC® desktop cradle is a single dock charging station for the iPad tablet cases. The **'Simply-Dock'** desktop cradle removes the need for plugging in cables for routine charge* or synchronicity functions.

The desktop cradle allows use in either landscape or portrait modes when not charging, making it a useful workstation.

Key Features

- **Anti-Microbial Protection:** Inhibits or destroys harmful surface contaminants to maintain a hygienic environment.

- **Simply-Dock® Cradles:** Enables easy charging and data synchronization without the need for cables

- **Ease of Cleaning:** Compatible with anti-microbial wipes and sprays (see our cleaning guide for approved options).

- **User-Friendly Design:** With its ergonomic design, it is easy to insert the iPad in landscape or portrait mode making it versatile and convenient for busy professionals.

Technical SPECIFICATIONS

- Biomaster anti-microbial technology

- UL and CSA approved flame-retardant ABS plastic.

- Standard USB 2.0 connectivity

- Uses existing iPad power adapter.

- **Weight of cradle:** 0.51kg

- **Size:** 12 x 25 x 12.5cm

- Compatible with 7th--10th Gen iPad & Air3, Air4 & Air5 Tough-PAC iPad Cases

Tough-PAC CS4 Charging Station

Tough-PAC®'s Charging Station CS4 allows the intelligent charging or synchronising up to 4 Tough-PAC® units simultaneously using 'Simply-Dock' interface technology.

The CS4 Charging Station may be located on a desktop or even inside a suitable cabinet for added security. For IT management, CS4 has its own optimised USB hub that delivers precise power for charging and allows data management via a USB cable for up to 4 iPads at the same time.

Key Features

- **Simply-Dock® Intelligent Charging:** Enables easy charging and data synchronization of up to 4 devices simultaneously.

- **Flexibility and Visibility:** DC power supply allows easy location on desktop or inside cabinets, with LED indicator of device charge levels.

- **Ease of Cleaning:** Compatible with anti-microbial wipes and sprays (see our cleaning guide for approved options).

- **User-Friendly Design:** Use, dock and go – no cables required to plug into devices making it versatile and convenient for busy professionals.

USB Hub Interface functions with Windows or MAC PCs and Apple Configurator and MDM (Mobile Device Management) Software

Technical SPECIFICATIONS

- 'Simply Dock' USB interface technology*

- Optimised USB 2.0 Hub Management

- 12v5A DC power supply, efficiency level VI.

- **Weight of dock:** 2.31kg

- **Size:** 25 x 35 x 7cm

- Compatible with 7th-10th Gen iPad & Air3, Air4 & Air5 Tough-PAC iPad Cases

Compatibility

Both charging options are compatible with the iPad 7th, 8th and 9th Gen (10.2"); 10th Gen 10.9" (2022); iPad Air3 (10.5"); iPad Air4 and Air5 (10.9") Tough-PAC cases.

General Tough-PAC Benefits

- **Enhanced Hygiene:** Anti-microbial technology ensures a clean and safe environment.

- **Robust Protection:** Comprehensive protection against knocks, fluids, and contaminants.

- **Peace of Mind:** With busy staff in mind, Tough-PAC® offers ease of use, low maintenance, and secure confidence.

- **Convenience:** Simply-Dock® cradles eliminate the hassle of plugging in cables, making charging and data syncing effortless.

Applications
Ideal for

Healthcare Professionals
Maintain hygiene and protect devices in clinical settings.

Hospitality
Keep devices safe and clean in busy environments.

Retail Workers
Ensure durability and ease of use for POS systems.

Educational Users
Provide sturdy, cleanable protection in schools and universities.

About Schiltron.io

Schiltron.io is a technology company providing international services for the Tough-PAC range of products in conjunction with Inner-Vision Technology. Our mantra is to protect, innovate and transform working practices. With the Tough-PAC suite of innovative products and services, we offer a solution that protects your devices, data and the people using them, enabling safer and more secure mobility and flexibility in healthcare and other people facing environments, such as education, retail, hospitality and manufacturing.
